Ways for Students to Engage with Our Offices

- Make appointments with Career Coaches and Career Consultants
- Visit the various centers in person: NTC Career Services – Mussafer Hall 1st Floor Hallway; Freeman Career Management Center - Goldring/Woldenberg Business Complex #308
- Use the Handshake online platform
- Follow our career centers on social media: @tu.career.services and @tulanefreemanschool
- Attend in-person and virtual guest speaker events and Career Corner (mini-career fairs)
- Find events and activities by searching “career” in the WaveSync organization and events online portal,
- Enroll in one of the career development courses CDMA or CRDV
- Use the newly created comprehensive Tulane Career Connection website

Career Courses NTC Career Services: CRDV

CRDV 1060 Exploring Majors and Careers (1)

- Students will engage in self-assessment and exploration surrounding their major and career goals to concretely identify avenues to achieve career-related goals such as major declaration, securing internships, and exploring different career paths. The course may only be taken once for credit.

CRDV 1070 Preparing for Jobs, Internships, and Graduate School (1)

- Students will learn the importance of developing their personal brand, establishing a professional network, and applying current career knowledge to achieve career-related goals such as applying for graduate school, securing a job after graduation, and preparing for a successful post-graduation transition.

Career Courses Freeman School: CDMA

CDMA 1201 Career Development and Management I (2)

- This course is the required foundational career education course for all Freeman undergraduates. The course offers a blended approach with online content, videos and interactives that can be revisited and reinforced during the entire academic tenure at Freeman. Students learn how to interpret their individual career assessment, do extensive research and targeting, develop an effective contact network and execute successful internship and job search strategies. Students will leave the class with the tools necessary to build a career plan. Guest speakers from a variety of business backgrounds and one-on-one meetings with CMC Career Consultants supplement course learnings.
